

## GROWING ANNUAL FORAGES

Nebraska Extension is working with USDA and Crop Insurance Partners to discuss how cattle producers can utilize annual forages this season to supplement loss of hay and pasture in flood affected areas.

### AGENDA

Presentations by Daren Redfearn and Kristen Ulmer — UNL Extension, Natural Resource Conservation Service Personnel— USDA, and Crop Insurance Company Representatives.

Topics include; picking annual forage species to grow, mixes, forage value, preventive planting, USDA EQIP program, and more. UNL Extension will share key publications and online resources.

Sponsored by Nebraska Extension in Dodge County
