

EASTERN NEBRASKA SOIL HEALTH CONFERENCE

Wednesday, Feb. 2, 2022

9:00 a.m. - 4:00 p.m. CST Registration at 8:30 a.m.

Event Center - Butler County Fairgrounds

62 L Street * David City, Nebraska

The conference features innovative speakers who have worked with cover crops extensively and will share what they have learned. This is your opportunity to get your questions answered.

How can you get started with cover crops in your corn/soybean rotation? Already using cover crops - could you be doing it better? There are many benefits to utilizing cover crops, such as improved soil health and reduced erosion. It's the details of how and what to do that can present challenges. The focus of the conference is to provide information to growers who are in a corn/soybean rotation and to assist them in understanding the value of cover crops.

| | |
|------------|---|
| 8:30 a.m. | Registration (Donuts and Coffee) |
